The following hydroelectric plants and thermal power stations are located in Macedonia:

The "Zrnovci" Hydroelectric Power Plant

1. The "Zrnovci" hydroelectric power plant, which began operation during March 1950, is located near Kocane, on the Zrnovci River. This plant is equipped with two turbines. The total capacity of the plant is 2,800 kilowatts. During the summer the plant output is lessened because the river is lower.

The "Pesocani" Hydroelectric Power Plant

2. The "Pesocani" hydroelectric power plant located near the village of Pesocani, some 30 kilometers north of Ohrid. The plant is equipped with four turbines and has a total capacity of 3,600 kilowatts. Plans for the construction of the "Pesocani" hydroelectric plant were drawn up by Dimitar Simence

25X1

The "Dosnica" Hydroelectric Power Plant

3. The "Dosnica" hydroelectric power plant is located on the Dosnica River, some six kilometers south of Demir Kapija. The planned capacity of this plant is 4,800 kilowatts. Turbines had not been installed in this plant at the time informant fled Yugoslavia in late July 1952.
